

OPERATIONAL EXCELLENCE**Project Management**

Reaching the best QCD (Quality, Cost, Lead Time) ever is a huge stake every Project Manager faces. In addition, you want involved and engaged teams, satisfied stakeholders and obviously delighted customers!

We support you on 4 main topics:

- **Co-develop or optimise with you a set of process, methods and tools to lead to Project Management standards and common references.**
 - Describe process and main activities, but also define the accurate gates to organise
 - Close focus to put the right tools at the right moment, keeping things simple and managing risks at the same time
 - Co-create templates, check lists, dashboards, ...
 - Apply standard Project Management tools as well as more innovative ones, such as Agile Methodology, or CCMP (Critical Chain Project Management)

- **Support your Project Managers to master their projects and obtain the best results.**
 - Train them to develop their skills and knowledge
 - Trainings can address general topics, also project leadership, costs analysis, risk management, planning optimisation, cooperation within different teams, relationship with suppliers on development products projects, ...
 - Come and work hand in hand on the field, directly on the projects
 - Help prepare and pass the gates, stand the main issues, succeed on critical steps
 - Accelerate some changes on projects when necessary

- **Help you develop a culture of project management within your organisation**
 - Create leaflets, games, tools to enhance project management culture
 - Co-construct modules to develop the culture, involve your teams, reinforce people commitment
 - Roll-out programs, locally or on a worldwide level
 - Participate to key meetings, co-organise with you special events, invite speakers and experts to tell you the way they think and act on projects, ...

- **Take the high ground and monitor your projects portfolio**
 - Help you define the right KPI to follow, and how to collect them accurately
 - Participate to your steering committees, give you feedback to improve
 - Audit projects you ask us to, each time willing to develop people skills as well as to reduce risks and increase efficiency
 - Support you to take the best decisions with a global perspective, and align your projects and leaders with your Company strategy and values

Examples of recent missions:

- Adaptation of worldwide Corporate Project Management standards to a remote project team operating as a joint venture in China
- Audit of Projects in all Asia, with a triple objective to enhance quality over strategic projects, to challenge senior PM (Project Managers) on their practice, and to train the teams on the field to reinforce their expertise
- Creation of a set of tools and templates to facilitate the daily works of project teams in Singapore
- Participation of Project Steering Committees in Hong Kong, and improvement feedback
- Many trainings in several countries, both for junior project managers, projects teams, and senior PM
- Team-bonding of specific Project Teams in Thailand (launching phase or after reorganisation)
- Mentoring program to Digital Project Managers (regular meetings and focus when needed)
- Regular support to several IT Project Managers (monthly + at specific moments)
